Violation of these restrictions may result in disqualification of your offer, suspension or debarment, and may constitute a violation of law.

(a) During the period between publication of the solicitation and final award, *you must not communicate, directly or indirectly, with the Using Governmental Unit or its employees, agents or officials regarding any aspect of this procurement activity*, unless otherwise approved in writing by

the Procurement Officer. All communications must be solely with the Procurement Officer. [R. 19-445.2010]

(b) You are advised to familiarize yourself with Regulation 19-445.2165, which restricts donations to a governmental entity with whom you have or seek to have a contract. ***You represent that your offer discloses any gifts made, directly or through an intermediary, by you or your named subcontractors to or for the benefit of the Using Governmental Unit during the period beginning eighteen months prior to the Opening Date.*** [R. 19-445.2165] [02-2A087-1]

PUBLIC OPENING (JAN 2004)

Offers will be publicly opened at the date/time and at the location identified on the Cover Page, or last Amendment, whichever is applicable. [02-2A090-1]

QUESTIONS FROM OFFERORS (FEB 2015)

(a) Any prospective offeror desiring an explanation or interpretation of the solicitation, drawings, specifications, etc., must request it in writing. Questions regarding the original solicitation or any amendment must be received by the Procurement Officer no later than five (5) days prior to opening unless an earlier date is stated on the Cover Page. Label any communication regarding your questions with the name of the procurement officer, and the solicitation's title and number. Oral explanations or instructions will not be binding. [See R. 19-445.2042(B)] Any information given a prospective offeror concerning a solicitation will be furnished promptly to all other prospective offerors as an Amendment to the solicitation, if that information is necessary for submitting offers or if the lack of it would be prejudicial to other prospective offerors. See clause entitled "Duty to Inquire." **We will not identify you in our answer to your question.** (b) The State seeks to permit maximum practicable competition. Offerors are urged to advise the Procurement Officer -- as soon as possible -- regarding any aspect of this procurement, including any aspect of the Solicitation that unnecessarily or inappropriately limits full and open competition. [See R. 19-445.2140] [02-2A095-2]

REJECTION/CANCELLATION (JAN 2004)

The State may cancel this solicitation in whole or in part. The State may reject any or all proposals in whole or in part. [SC Code Section 11-35-1710 & R.19-445.2065] [02-2A100-1]

RESPONSIVENESS/IMPROPER OFFERS (JUN 2015)

(a) Bid as Specified. Offers for supplies or services other than those specified will not be considered unless authorized by the Solicitation.

(b) Multiple Offers. Offerors may submit more than one Offer, provided that each Offer has significant differences other than price. Each separate Offer must satisfy all Solicitation requirements. If this solicitation is an Invitation for Bids, each separate offer must be submitted as a separate document. If this solicitation is a Request for Proposals, multiple offers may be submitted as one document, provided that you clearly differentiate between each offer and you submit a separate cost proposal for each offer, if applicable.

(c) Responsiveness. Any Offer which fails to conform to the material requirements of the Solicitation may be rejected as nonresponsive. Offers which impose conditions that modify material requirements of the Solicitation may be rejected. If a fixed price is required, an Offer will be rejected if the total possible cost to the State cannot be determined. Offerors will not be given an opportunity to correct any material

nonconformity. Any deficiency resulting from a minor informality may be cured or waived at the sole discretion of the Procurement Officer. [R.19-445.2070 and Section 11-35-1520(13)]

(d) Price Reasonableness: Any offer may be rejected if the Procurement Officer determines in writing that it is unreasonable as to price. [R. 19-445.2070].

(e) Unbalanced Bidding. The State may reject an Offer as nonresponsive if the prices bid are materially unbalanced between line items or subline items. A bid is materially unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated in relation to cost for other work, and if there is a reasonable doubt that the bid will result in the lowest overall cost to the State even though it may be the low evaluated bid, or if it is so unbalanced as to be tantamount to allowing an advance payment.

(f) **Do not submit bid samples or descriptive literature unless expressly requested.** Unsolicited bid samples or descriptive literature will not be examined or tested, will not be used to determine responsiveness, and will not be deemed to vary any of the provisions of the solicitation. S.C. Code Ann. Reg. 19-445.2077(D). [02-2A105-2]

STATE OFFICE CLOSINGS (JAN 2004)

In lieu of an automatic extension, an Amendment may be issued to reschedule bid opening. SUBMITTING CONFIDENTIAL INFORMATION (FEB 2015)

(An overview is available at www.procurement.sc.gov) For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the word "CONFIDENTIAL" every page, or portion thereof, that Offeror contends contains information that is

exempt from public disclosure because it is either (a) a trade secret as defined in Section 30-4-40(a)(1), or (b) privileged and confidential, as that phrase is used in Section 11-35-410. For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the words "TRADE SECRET" every page, or portion thereof, that Offeror contends contains a trade secret as that term is defined by Section 39-8-20 of the Trade Secrets Act. For every document Offeror submits in response to or with regard to this solicitation or request, Offeror must separately mark with the word "PROTECTED" every page, or portion thereof, that Offeror contends is protected by Section 11-35-1810. All markings must be conspicuous; use color, bold, underlining, or some other method in order to conspicuously distinguish the mark from the other text. Do not mark your entire response (bid, proposal, quote, etc.) as confidential, trade secret, or protected. If your response, or any part thereof, is improperly marked as confidential or trade secret or protected, the State may, in its sole discretion, determine it nonresponsive. If only portions of a page are subject to some protection, do not mark the entire page. By submitting a response to this solicitation or request, Offeror (1) agrees to the public disclosure of every page of every document regarding this solicitation or request that was submitted at any time prior to entering into a contract (including, but not limited to, documents contained in a response, documents submitted to clarify a response, and documents submitted during negotiations), unless the page is conspicuously marked "TRADE SECRET" or "CONFIDENTIAL" or "PROTECTED", (2) agrees that any information not marked, as required by these bidding instructions, as a "Trade Secret" is not a trade secret as defined by the Trade Secrets Act, and (3) agrees that, notwithstanding any claims or markings otherwise, any prices, commissions, discounts, or other financial figures used to determine the award, as well as the final contract amount, are subject to public disclosure. In determining whether to release documents, the State will detrimentally rely on Offeror's marking of documents, as required by these bidding instructions, as being either "Confidential" or "Trade Secret" or "PROTECTED". By submitting a response, Offeror agrees to defend, indemnify and hold harmless the State of South Carolina, its agencies, officers and employees, from every claim, demand, loss, expense, cost, damage or injury, including attorney's fees, arising out of or resulting from withholding information by the State of South Carolina or any of its agencies, that Offeror marked as "confidential" or "trade secret" or "PROTECTED". III. SCOPE OF WORK/SPECIFICATIONS

General Management

General Description: South Carolina seeks a full service contractor capable of executing a complex recovery from the damage South Carolina suffered from Hurricane Matthew in October 2016. The recovery is funded by a U.S. Dept. of Housing and Urban Development ("HUD") Community Development Block Grant – Disaster Recovery ("CDBG-DR") and other grants and donations received by the program. As an overview, the State seeks a contractor capable of Turnkey operations, executing multiple and simultaneous operations throughout the state while maintaining the highest customer service standards and in full and complete accordance with all applicable laws, regulations, ordinances, and grant requirements. The Contractor would be responsible to the State for the execution of a large and complex strategic communications plan, establishing and maintaining a first rate training program enabling continuity of service throughout the state, providing face to face intake operations aimed at providing services to those citizens deemed most vulnerable and executing a construction program, including all aspects of environmental compliance, capable of withstanding a series of complex audits.

The State intends to conduct the recovery beginning with its most vulnerable population and working through its priority matrix to the less vulnerable. The State believes strongly in providing first-rate customer service during the conduct of this recovery combined with the strongest fiscal accountability of taxpayers' dollars. As a minimum, the proposal must include the topics and general categories outlined

above and listed below, and describe how the offeror will provide those services to the citizens of South Carolina. The state expects exceptional management of the project and will not tolerate disallowable expenses, fraud, duplication of benefits, or any fiscal irresponsibility of taxpayer dollars.

The State intends to conduct the Hurricane Matthew housing recovery program in a manner that is generally consistent with its current October 2015 Storm housing recovery operation. The State refers any interested Offeror to <http://scstormrecovery.com/useful-resources/> as a point of reference for the manner in which the current operation is conducted. Please also see <https://www.scdr.sc.gov/>.

As a Minimum the State expects the Successful Offeror to conduct full spectrum recovery operations and repair, rebuild, or replace approximately 1050 damaged homes with no more than a 10% variance. Based on the directives set forth in the HUD CDBG-DR grant for Hurricane Matthew, 82 FR 5591, in the presidentially declared disaster counties the State expects to repair, rebuild, or replace 1050 homes statewide plus 20 rental units, of which 840 homes and 20 rental units are expected to be in Marion County, all figures +/- 10%.

The Offeror's requirements are as follows:

1. Offeror's Project Manager will report to the State's designated Program Manager and/or his designated representative.
2. Offeror will ensure that a minimum of 25% of all those employed to execute the contract are South Carolina residents with the goal of 75%. This includes all prime and sub-contractors. Offeror will conduct a minimum of two (2) job fairs in counties as directed by the state, with one job fair conducted in Marion County.
3. The South Carolina Disaster Recovery Office ("SCDRO") has a fully functional headquarters located at 632 Rosewood Dr., Columbia, SC 29202 capable of recovery operations, recovery analysis, coordination, executive briefings, monitoring, auditing, and tracking of all aspects of recovery. Offeror will co-locate with the State Disaster Recovery Office at its headquarters. In addition, with approximately 80% of the total relief funding designated for Marion County (as set forth 82 FR 5591, Docket No. FR-6012-N-01), Offeror must maintain a physical office presence in Marion County during the duration of the recovery activities or until the State agrees to closure.
4. Offeror will incorporate Volunteer Organizations Active in the Disaster (VOAD) into their recovery operation during the course of the recovery. Offeror must have VOAD coordination ability, or a VOAD partner, who can interface with the Crisis Action Network ("CAN") database and who will abide by personally identifiable information restrictions.
5. Offeror must be able to repair, replace, or rebuild brick and mortar homes, mobile or manufactured homes, and modular homes.
6. Offeror will provide a minimum of one Executive Briefing to the State per week which outlines all current work to date, all work currently underway, and all work planned both in the near term and far term.
7. Offeror must provide the State notice of all sub-contractors it intends to hire to accomplish the recovery mission. All sub-contractors must meet South Carolina Regulatory and compliance guidelines.
8. Offeror agrees to follow State established recovery priorities. The State intends to begin the recovery process with the citizens who are most vulnerable.
9. Offeror must establish and maintain a full transparency website clearly portraying all aspects of the recovery. The Hurricane Matthew recovery website must integrate seamlessly with the

current South Carolina Disaster Recovery website with the capability to cross-reference and provide links between sites for the 2015 Storm/Flood Recovery project and the 2016 Hurricane Matthew recovery project. Please see <http://scstormrecovery.com/> and <https://www.scdr.sc.gov/>.

10. Offeror will establish and maintain liaison with all Volunteer Organizations Active in the Disaster (VOAD) as well as complete situational awareness of all VOAD rebuilding and/or refurbishment activities.
11. Offeror will establish and maintain liaison with all Long Term Recovery Groups (LTRG) operating in response to the disaster.
12. Offeror must provide an on-site compliance capability to ensure internal fiscal responsibility and provide the State with the result of all internal reviews.
13. Offeror must provide a project management capability which timelines all aspects of the recovery and estimated completion of all tasks and provides the State with this data in a formal weekly briefing.
14. Offeror will provide Intake and Eligibility Operations which determines eligibility; processes and assigns work as applicable within established policy guidelines; conducts extensive coordination with an existing state case management contract (Palmetto Disaster Recovery) to validate eligibility of citizens, and Offeror must ensure no citizen receives any duplication of benefits prior to providing any program assistance. Offeror's Intake and Eligibility processes must be able to accept Microsoft CRM based data from Palmetto Disaster Recovery's case management program for Hurricane Matthew. Offeror may also receive disaster case management files from other disaster case management operations as directed or identified by the State. This requirement is critical for the efficient transfer of data in order to shorten the overall housing recovery time for disaster survivors.
15. Offeror accepts the requirement to make all personnel, location, files and other pertinent information available to the State (and/or to the Federal government) at any time during the course of the contract.
16. Offeror will establish an escalation protocol for any citizen issue resulting in keeping the State informed as to the progress of all complaints.
17. Offeror must possess an understanding of the State's Hurricane Matthew Disaster Recovery Action Plan, HUD's CDBG-DR program, HUD's National Objectives, the FEMA Mission Scoping Assessment, and the FEMA Recovery Support Strategies.
18. Offeror will provide an online appeals and complaint system capability which ensures citizens are informed and provided responses to questions, inquiries and complaints within 2 working days.
19. Offeror must provide an official Certificate of Occupancy upon completion of all work to the homeowner and retain this certificate on file.
20. Offeror will ensure that all contract personnel (from prime to all sub-contractors associated with the contract) are identified by a standard color collared shirt and photo identification. The words: 'South Carolina Recovery' and 'Contractor' are required to be clearly visible on both the shirt and photo identification badges.
21. The State will implement an inspection and compliance/monitoring program.
22. Offeror will ensure compliance with all aspects of the HUD based State Action Plan. Should the Action Plan require an amendment, the Offeror will prepare the proposed amendment at the direction of the State.

23. Offeror will conduct HUD compliant environmental reviews for each project.
24. Offeror will ensure compliance with all Federal, State, and Local Environmental standards and follow all established environmental standards during the conduct of all work for the duration of the contract.
25. Offeror will ensure strict compliance with all HUD standards and will adjust to any HUD updates. If the state decides to seek from HUD a program waiver or an amendment to the Hurricane Matthew Action Plan, Offeror will be responsible, at the direction of the State, for preparing the waiver or amendment along with all required supporting documentation.
26. Offeror will report to the State any evidence of fraud within 2 workdays of discovery.
27. Offeror will provide a weekly follow up capability for citizens who are deemed eligible.
28. Offeror will provide expertise in the HUD CDBG-DR national objectives program and ensure compliance with information security requirements and employ defined security controls in accordance with applicable federal laws, Executive Orders, directives, policies, regulations, standards, and guidance.
29. Offeror must utilize SCDRO's existing Special Case Panel process for approval of any eligibility determination outside of program guidelines, priority change outside of program guidelines, or proposed cost of replacement/repair estimates that exceed program guidelines for a particular class of repair or replacement.
30. Offeror must establish a process by which it assesses the cost effectiveness of each rehabilitation or reconstruction project undertaken to assist a household. For any residential rehabilitation or reconstruction program Offeror must assess the cost effectiveness of each proposed project undertaken to assist a household, including criteria for determining when the cost of the rehabilitation or reconstruction of the unit will not be cost-effective relative to other means of assisting the property-owner, including through buyout or acquisition of the property, or the construction of area-wide protective infrastructure, rather than individual building mitigation solutions designed to protect individual structures.
31. Offeror must comply with Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701u) (Section 3) in order to ensure that employment and other economic opportunities generated by certain HUD financial assistance shall, to the greatest extent feasible, and consistent with existing Federal, State and local laws and regulations, be directed to low- and very low income persons, particularly those who are recipients of government assistance for housing, and to business concerns which provide economic opportunities to low- and very low-income persons.
32. Offeror will provide an Information Technology System of record which meets all state Personally Identifiable Information ("PII") security standards and includes role based protections. All designated State personnel will have unfettered access to the system of record.
33. Offeror shall monitor, audit, and train its staff on the authorized sharing of sensitive data and the consequences of unauthorized use or sharing of such data.
34. Offeror must have a demonstrated ability to expand operations should additional funding be granted by HUD for CDBG-DR relief for the South Carolina Hurricane Matthew disaster.
35. Offeror will comply with all applicable project requirements set forth in 82 FR 5591 and 81 FR 83254.

Strategic Communications

General Description: Strategic communications are the internal and external relations with audiences at all levels, including national, state, local counties and municipalities, volunteer organizations, and most importantly, the individual citizens affected by Hurricane Matthew in October 2016. Internal communications refers to the audience of those whom are actively involved in recovery efforts, ensuring synchronization of efforts in a prioritized manner focused on recovering those most vulnerable first. Communications will, at all times, be customer-service focused. Additionally, communications are intentionally meant to be overt, keeping all informed on the latest in recovery efforts and adding an air of transparency to minimize impressions of the mis-utilization of funds or efforts.

As a minimum, the State expects the Offeror to execute the following missions as part of the overall contract as it relates to Strategic Communications:

1. Offeror will provide professional and responsive customer service through a variety of media. The Offeror will provide their metrics of a minimal acceptable level of customer service for each medium. The Offeror will provide their system and associated metrics for the minimal acceptable level of service for tracking, resolving, and analyzing complaints and/or issues.
2. Offeror will establish a public transparency website that provides citizen access to all aspects of the recovery within 90 days of contract award. The State reserves the right to approve and/or disapprove all content on the website. Please see <http://scstormrecovery.com/> and <https://www.scdr.sc.gov/>.

6. The public website must use Wordpress™ as the content management system or a similar platform as approved by the State. The State owns the website and its content. If the Offeror maintains or operates the website during the recovery operation, the website will be turned over to the State at the conclusion of operations.

7. Offeror will provide a weekly update on their plan to communicate with the most vulnerable citizens, keep stakeholders informed of the program's progress, outbound communications, and status of the website.

Intake and Eligibility Operations

General Description: Offeror will provide customer service oriented intake and eligibility operations for the disaster housing assistance program to address the unmet needs of residents directly affected by Hurricane Matthew in October 2016. The Intake and Eligibility Operators will play an essential role in ensuring that delivery of assistance to program applicants is timely and responsive to customer needs, while ensuring and documenting eligibility, accountability and proper use of funds.

The State entity Palmetto Disaster Recovery is conducting Hurricane Matthew disaster case management pursuant to a separate grant from FEMA. In addition to serving citizen survivors in need of disaster case management, the State seeks to seamlessly transfer into the CDBG-DR program those clients of Palmetto Disaster Recovery who may be eligible for CDBG-DR housing relief. Because Palmetto Disaster Recovery has been operating since March 2017, it will be able to identify persons in need of housing relief. It is anticipated that Palmetto Disaster Recovery will be able to transfer the information for approximately 1000 un-prioritized citizens in need of housing relief. Because of the number of persons who will already have been identified as needing housing relief, the actual intake period will be 90 days. Offeror's system of record must be able to accept the State's Microsoft based Palmetto Disaster Recovery data regarding those disaster survivors who may be eligible for CDBG-DR housing benefits. The goal of the requirement to seamlessly transfer data is to shorten the overall time period for providing housing benefits to disaster survivors who qualify.

As a minimum, the State expects the Offeror to execute the following missions as part of the overall contract as it relates to Intake and Eligibility Operations:

1. Intake operations will begin within 45 days of the award of this contract unless otherwise agreed to by the State.
2. Intake operations will last 90 days for application acceptance.
3. The Offeror will provide Intake and Eligibility Operators who are capable of quickly and efficiently conducting application processing to include determination of program eligibility in accordance with all program requirements, ownership, FEMA, insurance and other payments, duplication of benefits, floodplain status, and other documentation as required.
4. The Offeror will ensure completed applications are entered into the appropriate Intake and Eligibility system and coordinated with other statewide Intake and Eligibility Operators.
5. The Offeror will ensure that an application can be securely initiated and completed via the public website.
6. The Offeror will ensure compliance with The Stafford Act.
7. The Offeror will ensure no duplication of benefits in accordance with HUD and federal and state policy.
8. The Offeror will prioritize applications according to established policy.
9. The Offeror must perform research to determine if an applicant's real property or manufactured housing unit is encumbered by a mortgage or lien.
10. The Offeror will work to ensure all citizens receive the appropriate amount granted by law, policy, or guidance.

11. The Offeror will provide timely, ongoing communication with each applicant regarding all aspects of the applicant's case, home repairs, reconstruction, replacement, or new construction, and keep the citizen fully aware of all expectations and construction timelines.
12. The Offeror will ensure a smooth and standards based information process flow system which enables efficient operations and will provide examples of how they intend to accomplish this mission within the proposal.
13. Offeror may be required to establish eligibility requirements for sub-grantees.
14. The Offeror will close out the applicant's file after final inspection and payment.

Intake Centers

General Description: Offeror will establish Intake Centers or mobile intake units (referred to as Intake Operations) in order to serve the applicants in a timely and customer service oriented manner. Intake Centers are the initial contact between the Offeror and applicant. It is vital that Intake Centers/operations are provided in each designated county in order to serve the most applicants in a responsive manner. Intake/Eligibility Operators will be housed in the Intake Centers and will talk directly with the applicant and families to determine their need in compliance with the Disaster Housing Assistance program. It is important for employees of the Intake centers to be friendly and knowledgeable in all aspects of the process. Lack of knowledge creates confusion and frustration so all employees must be trained to answer questions efficiently and effectively.

As a Minimum, the State expects the Offeror to execute the following missions as part of the overall contract as it relates to Intake Centers:

1. Offeror will establish one static intake operation center in Marion County, SC. The static intake center will be established within 45 days of contract award. The static intake center will remain open for at least 90 days. Ninety days for active application acceptance and a reasonable time thereafter for applicants to submit any required follow up documentation. During the intake period, the static intake center must be open weekdays and on Saturdays from 9 a.m. to 5 p.m. The Offeror must provide mobile intake units for the remaining counties served by the state Action Plan. The mobile intake center will require that the Offeror provide intake services at various sites determined by the State to best achieve intake in the remaining counties served under the State Action Plan for Hurricane Matthew. The State will determine when to close the static intake center based upon statistical proof that the center has accomplished its intended purpose. The Intake Center must be operational and staffed in a manner to reduce wait time and to accommodate working families. Although intake will stop after 90 days, please see #3 above under General Management which requires Offeror to maintain a physical presence in Marion County for the duration of the recovery operation since HUD specified that the vast majority of the recovery funding must be utilized in Marion County.
2. The Offeror must be granted approval from the State prior to closing any Intake Center.
3. The Offeror will provide a greeter/screener at each Intake Center to screen for basic eligibility and ensure the citizen has all of the required documentation to move to case management.
4. The Offeror will ensure exceptional customer service at Intake Centers. The State will not dictate the number of employees at each center but expects each citizen to be treated in a timely manner. Each Intake Center will be unique based upon the needs of the local area; however, the offeror will provide a metrics based customer service standard accounting for both time of transaction and overall number of customers expected to be served daily. These metrics will be presented to the State at the weekly Executive briefing.

5. The Offeror will provide an appointment system allowing for greater citizen predictability and less citizen wait time.
6. In extreme cases where mobile intake does not suffice, the Offeror's intake staff will travel to the home for those who have a valid appointment and are elderly, infirm, or do not have transportation to the intake Center. Additionally, the State is not opposed to an offeror outreach program which brings the case management system to the citizen. If a home visit is necessary, Offeror will always have two staff members attend the home visit.
7. Intake Centers must be ADA compliant.
8. The Offeror will ensure that citizens who are deemed eligible know the next step in the process, have clearly defined expectations, and a viable timeline. In compliance with this requirement, at a minimum, Offeror will provide client with an easily understandable written or graphic document that sets forth the preceding information.
9. The Offeror will ensure a bi-lingual (Spanish) capability and address language issues at all Intake Centers as well as during all follow up communications with citizens.
10. The Offeror will provide on-site staff who will ensure compliance with all aspects of the Fair Housing Act and conduct a program ensuring that populations that are least likely to apply are able to fully understand the program.

Construction Management

General Description: Provide quality and timely construction management services for disaster housing assistance, from all aspects of environmental compliance, damage assessments, and cost of repair estimates, to inspection and work write-ups, progress inspections and payments, through to final inspection, close-out/certificate of occupancy. It is the goal of the State to conduct "One Knock" inspections wherein the environmental assessment, damage assessment, and cost of repair assessment, will be undertaken during one visit to the applicant's home. The goal of the One Knock is to efficiently and effectively conduct the needed assessment with as little interruption to the applicant as possible. State program personnel may also attend the One Knock for compliance and monitoring purposes.

At a minimum, the State expects the Offeror to execute the following missions as part of the overall contract as it relates to Construction Management:

1. The Offeror must ensure all workers know and enforce housing policies (including mobile home, minimum standards, mold remediation, lead based paint, asbestos, floodplain etc.), and ensure compliance.
2. The Offeror must conduct initial inspection and analysis on each home to establish the home's relative value to determine if it should be replaced/rebuilt or rehabilitated in accordance with established policies. It is imperative that the Offeror provide complete and accurate damage assessments and cost of repair estimates so as to avoid and minimize change orders.
3. The Offeror must assess the cost effectiveness of each proposed project undertaken to assist a household, including criteria for determining when the cost of the rehabilitation or reconstruction of the unit will not be cost-effective relative to other means of assisting the property-owner, including through buyout or acquisition of the property, or the construction of area-wide protective infrastructure, rather than individual building mitigation solutions designed to protect individual structures.
4. The Offeror will bid out all construction contract or sub-contract work, will provide justification if the lowest bidder is not selected, and all bid documents will be made available to the State whether a bidder is selected or not.

5. The Offeror will secure bids or cost comparisons for each type of MHU or modular home that will be utilized in the program (for example 2 bedroom/2 bath, 3 bedroom/2 bath, or ADA compliant units). The bids or cost comparisons will be sought from at least two manufacturers (such as Clayton, Fleetwood or Oakwood, which preceding manufacturers are named only for an example). If the lowest cost manufacturer is not selected, the Offeror will provide its selection justification, and all bid or cost comparison documents will be made available to the State whether the bidder is selected or not.
6. The Offeror will ensure that all new MHUs installed as a part of this program are rated, at a minimum, for Wind Zone 2, and the MHU will be installed in compliance with the Wind Zone rating.
7. The Offeror must follow established process for all homes scheduled for demolition, and dispose of mobile homes and all demolition/construction debris in accordance with all local, state, and Federal guidelines, regulations, and ordinances.
8. The Offeror must conduct site reconnaissance in accordance with established policies and coordinate with eligible applicants a minimum of 72 hours in advance of arrival.
9. The Offeror must ensure all construction meets local and state building codes and established policies; must ensure that the work performed is of good and workmanlike quality; and, must conduct progress and final inspections and approve and make timely payments to subcontractors accordingly.
10. The Offeror is responsible for coordinating the timely move in/move out of applicants whose homes are being repaired or replaced so as to minimize the disruption to the applicant and minimize the amount of time the applicant is out of the home. The Offeror is also responsible for on-site storage units, if necessary, for the storage of an applicant's possessions during the time the applicant is displaced.
11. The Offeror must closely monitor all construction timelines and provide the State with weekly briefings.
12. The Offeror should be prepared to file program liens with the county in which the property is repaired; and, in the case of manufactured housing units, the filing of UCC statements with the S.C Secretary of State's office.
13. The Offeror should be prepared to handle title registration with the S.C. Dept. of Motor Vehicles for newly installed manufactured housing units and title retirement for manufactured housing units demolished as part of the program.
14. The Offeror must maintain all construction records documenting compliance from start up to file close-out.
15. The Offeror will conduct all environmental assessments, including but not limited to Tier 1 and Tier 2 assessments, lead based paint assessment, or asbestos containing materials assessments.
16. Offeror will provide, at a minimum, a weekly briefing to the state regarding the program intake, program construction progress, and program close out. The briefing will provide an update on program metrics as requested and established by the state.
17. As a part of the repair, rehabilitation or replacement analysis, the Offeror is expected to conduct 1300 cost of repair estimates (+/- 10%), so that the program has a sufficient number of potential projects to reach the program goal of 1050 homes and 20 rental units repaired, rehabilitated or replaced.
18. Offeror will comply with all construction standards, housing quality standards, and energy efficiency standards set forth in 82 FR 5591 and 81 FR 83254.

Training Program

General Description: The Offeror shall provide competent and adequately trained personnel with the qualifications, knowledge, skills and abilities to train all employees as well as all sub contracted employees, state government employees, and any other entity deemed by the State to undergo the training.

2. The Offeror will provide initial and ongoing training to all employees as well as all sub contracted and state government employees on applicable state policies.

4. The Offeror will provide updated training on any policy changes to the workforce in a timely and efficient manner, and retain records of everyone who has attended the training.

General Description: This portion of the proposal must include the Offeror internal compliance plan, the plan for audit engagements during the contract period and after the contract period, the close out process for the program once contract period ends, and how disallowed costs are handled within this contract.

As a minimum, the State expects the Offeror to execute the following missions as part of the overall contract as it relates to Compliance /Audit/Close-Out/Disallowed Costs:

(i) information security risks, including without limitation, failure to prevent unauthorized access to, tampering with or unauthorized use of a computer system; introduction of malicious codes, computer viruses, worms, logic bombs, etc., into data or systems; or theft, damage, unauthorized disclosure, destruction, or corruption of information in whatever form;

(ii) privacy risks, including (A) failure to properly handle, manage, store, destroy, or otherwise control non-public personally identifiable information in any format; (B) loss or disclosure of confidential information; and (C) any form of invasion, infringement or interference with rights of privacy, including breach of security/privacy laws or regulations;

(iii) contractual liability for the contractor's obligations described in the clauses titled "Indemnification - Third Party Claims – Disclosure Of Information" and "Information Use And Disclosure;" and

(iv) errors, omissions, or negligent acts in the performance, by the contractor or by any entity for which the contractor is legally responsible, of professional services included in the work.

(c) If the work includes content for internet web sites or any publications or media advertisements, coverage must also include claims for actual or alleged infringement of intellectual property rights,

invasion of privacy, as well as advertising, media and content offenses.

(d) If the work includes software, coverage must also include claims for intellectual property infringement arising out of software and/or content (with the exception of patent infringement and misappropriation of trade secrets)

(e) Coverage shall have limits no less than five million (\$5,000,000.00) dollars per occurrence and ten million (\$10,000,000.00) dollars aggregate.

(f) If the insurance required by this clause is procured on a form affording “claims-made” coverage, then (i) all limits stated above as “per occurrence” shall be understood to mean “per claim” or “per occurrence,” as is consistent with the terms of the “claims-made” policy; and (ii) such claims-made insurance shall provide for a retroactive date no later than the date the contract is awarded.

(g) All terms of this clause shall survive termination of the contract and shall continue until thirty (30) days past the final completion of the work, including the performance of any warranty work. In addition, contractor shall maintain in force and effect any “claims-made” coverage for a minimum of two (2) years after final completion of all work or services to be provided hereunder. Contractor shall purchase an extended reporting period, or “tail coverage,” if necessary to comply with the latter requirement.

(h) Every applicable Using Governmental Unit, and the officers, officials, employees and volunteers of any of them, must be covered as additional insureds on the policy or policies of insurance required by this clause.

(i) For any claims related to this contract, the insurance coverage required by this clause shall be primary insurance as respects the State, every applicable Using Governmental Unit, and the officers, officials, employees and volunteers of any of them. Any insurance or self-insurance maintained by the State, every applicable Using Governmental Unit, or the officers, officials, employees and volunteers of any of them, shall be excess of the Contractor’s insurance and shall not contribute with it.

(j) Prior to commencement of the work, the Contractor shall furnish the State with original certificates of insurance for every applicable policy effecting the coverage required by this clause. All certificates are to be received and approved by the Procurement Officer before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor’s obligation to provide them. The State reserves the right to require complete, certified copies of all required insurance policies, including policy declarations and any endorsements required by this section, at any time.

(k) Should any of the above described policies be cancelled before the expiration date thereof, notice will be delivered in accordance with the policy provisions. In addition, the Contractor shall notify the State immediately upon receiving any information that any of the coverages required by this clause are or will be changed, cancelled, or replaced.

(l) Contractor hereby grants to the State and every applicable Using Governmental Unit a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State or applicable Using Governmental Unit by virtue of the payment of any loss under such insurance as is required by this clause. Contractor agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not the State or Using Governmental Unit has received a waiver of subrogation endorsement from the insurer.

(m) Any deductibles or self-insured retentions must be declared to and approved by the State. The State may require the Contractor to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. [07-7B058-1]

CONTRACTOR PERSONNEL (JAN 2006)

The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in tasks assigned to them. [07-7B060-1]

CONTRACTOR'S OBLIGATION -- GENERAL (JAN 2006)

The contractor shall provide and pay for all materials, tools, equipment, labor and professional and non-professional services, and shall perform all other acts and supply all other things necessary, to fully and properly perform and complete the work. The contractor must act as the prime contractor and assume full responsibility for any subcontractor's performance. The contractor will be considered the sole point of contact with regard to all situations, including payment of all charges and the meeting of all other requirements. [07-7B065-1]

CONTRACTOR'S USE OF STATE PROPERTY (JAN 2006)

Upon termination of the contract for any reason, the State shall have the right, upon demand, to obtain access to, and possession of, all State properties, including, but not limited to, current copies of all State application programs and necessary documentation, all data, files, intermediate materials and supplies held by the contractor. Contractor shall not use, reproduce, distribute, display, or sell any data, material, or documentation owned exclusively by the State without the State's written consent, except to the extent necessary to carry out the work. [07-7B067-1]

DEFAULT (JAN 2006)

(a) (1) The State may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to:

(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;

(ii) Make progress, so as to endanger performance of this contract (but see paragraph (a)(2) of this clause);
or

(iii) Perform any of the other material provisions of this contract (but see paragraph (a)(2) of this clause).

(2) The State's right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Procurement Officer) after receipt of the notice from the Procurement Officer specifying the failure.

(b) If the State terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Procurement Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the State in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, the State may require the Contractor to transfer title and deliver to the State, as directed by the Procurement Officer, any (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract. Upon direction of the Procurement Officer, the Contractor shall also protect and preserve property in its possession in which the State has an interest.

(f) The State shall pay contract price for completed supplies delivered and accepted. The Contractor and Procurement Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property; if the parties fail to agree, the Procurement Officer shall set an amount subject to the Contractor's rights under the Disputes clause. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the Procurement Officer determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the State, be the same as if the termination had been issued for the convenience of the State. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the State, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor's rights under the Disputes clause.

(h) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this contract.

[07-7B075-1]

DISPOSAL OF PACKAGING (JAN 2006)

Contractor shall dispose of all wrappings, crating, and other disposable materials pertaining to this contract at the end of each working day and upon completion of installation. [07-7B085-1]

INDEMNIFICATION-THIRD PARTY CLAIMS - GENERAL (NOV 2011)

Notwithstanding any limitation in this agreement, and to the fullest extent permitted by law, Contractor shall defend and hold harmless Indemnitees for and against any and all suits or claims of any character (and all related damages, settlement payments, attorneys' fees, costs, expenses, losses or liabilities) by a third party which are attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property arising out of or in connection with the goods or services acquired hereunder or caused in whole or in part by any act or omission of contractor, its subcontractors, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnitee, and whether or not such claims are made by a third party or an Indemnitee; however, if an Indemnitee's negligent act or omission is subsequently determined to be the sole proximate cause of a suit or claim, the Indemnitee shall not be entitled to indemnification hereunder. Contractor shall be given timely written notice of any suit or claim. Contractor's obligations hereunder are in no way limited by any protection afforded under workers' compensation acts, disability benefits acts, or other employee benefit acts. This clause shall not negate, abridge, or reduce any other rights or obligations of indemnity which would otherwise exist. The obligations of this paragraph shall survive termination, cancelation, or expiration of the parties' agreement. This provision shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance. As used in this clause, "Indemnitees" means the State of South Carolina, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees. [07-7B100-2]

INDEMNIFICATION - THIRD PARTY CLAIMS

DISCLOSURE OF INFORMATION (FEB 2015) (a) Without limitation, Contractor shall defend and hold harmless Indemnitees from and against any and all suits, claims, investigations, or fines (hereinafter "action") of any character (and all related damages, settlement payments, attorneys' fees, costs, expenses, losses or liabilities) by a third party which arise out of or in connection with a disclosure of government information (as defined in the clause titled Information Security - Definitions) caused in whole or in part by any act or omission of contractor, its subcontractors at any tier, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnitee, and whether or not such action is brought by a third party or an Indemnitee, but only if the act or omission constituted a failure to perform some obligation imposed by the contract or the law. (b) Indemnitee must notify contractor in writing within a reasonable period of time after Indemnitee first receives written notice of any action. Indemnitee's failure to provide or delay in providing such notice will relieve contractor of its obligations under this clause only if and to the extent that such delay or failure materially prejudices contractors ability to defend such action. Indemnitee must reasonably cooperate with contractor's defense of such actions (such cooperation does not require and is without waiver of an Indemnitees attorney/client, work product, or other privilege) and, subject to Title 1, Chapter 7 of the South Carolina Code of Laws, allow contractor sole control of the defense, so long as the defense is diligently and capably prosecuted. Indemnitee may participate in contractor's defense of any action at its own expense. Contractor may not, without Indemnitee's prior written consent, settle, compromise, or consent to the entry of any judgment in any such commenced or

threatened action unless such settlement, compromise or consent (i) includes an unconditional release of Indemnitee from all liability related to such commenced or threatened action, and (ii) is solely monetary in nature and does not include a statement as to, or an admission of fault, culpability or failure to act by or on behalf of, an Indemnitee or otherwise adversely affect an Indemnitee. Indemnitee's consent is necessary for any settlement that requires Indemnitee to part with any right or make any payment or subjects Indemnitee to any injunction. (c) Notwithstanding any other provision, contractor's obligations pursuant to this clause are without any limitation whatsoever. Contractor's obligations under this clause shall survive the termination, cancellation, rejection, or expiration of the contract. This provision shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance. (d) "Indemnitee" means the State of South Carolina, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees. [07-7B102-1]

INFORMATION SECURITY - DEFINITIONS (FEB 2015)

The following definitions are used in those clauses that cross reference this clause.

Compromise means disclosure of information to unauthorized persons, or a violation of the security policy of a system in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object may have occurred. Without limitation, the term "compromise" includes copying the data through covert network channels, or copying the data to unauthorized media, or disclosure of information in violation of any obligation imposed by this contract.

Data means a subset of information in an electronic format that allows it to be retrieved or transmitted.

Government information means information (i) provided to Contractor by, or generated by Contractor for, the using governmental unit, or (ii) acquired or accessed by Contractor as a result of performing the Work. Information system means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

Public information means any specific information, regardless of form or format, that the State has actively and intentionally disclosed, disseminated, or made available to the public. Information is not public information solely because it may be subject to inspection pursuant to an unfulfilled public records request.

Software means any computer program accessed or used by the Using Governmental Unit or a third party pursuant to or as a result of this contract.

Third party means any person or entity other than the Using Governmental Unit, the Contractor, or any subcontractors at any tier.

Web-based service means a service accessed over the Internet and acquired, accessed, or used by the using governmental unit or a third party pursuant to or as a result of this contract, including without limitation, cloud services, software-as-a-service, and hosted computer services. [07-7B104-1]

INFORMATION SECURITY - SAFEGUARDING REQUIREMENTS (FEB 2015)

(a) *Definitions.* The terms used in this clause shall have the same meaning as the terms defined in the clause titled Information Security – Definitions. In addition, as used in this clause—

Clearing means removal of data from an information system, its storage devices, and other peripheral devices with storage capacity, in such a way that the data may not be reconstructed using common system capabilities (i.e., through the keyboard); however, the data may be reconstructed using laboratory methods.

Intrusion means an unauthorized act of bypassing the security mechanisms of a system.

Media means physical devices or writing surfaces including but not limited to magnetic tapes, optical disks, magnetic disks, large scale integration memory chips, and printouts (but not including display media, e.g., a computer monitor, cathode ray tube (CRT) or other (transient) visual output) onto which information is recorded, stored, or printed within an information system.

Safeguarding means measures or controls that are prescribed to protect information.

Voice means all oral information regardless of transmission protocol.

(b) *Safeguarding Information.* Without limiting any other legal or contractual obligations, contractor shall implement and maintain reasonable and appropriate administrative, physical, and technical safeguards (including without limitation written policies and procedures) for protection of the security, confidentiality and integrity of the government information in its possession. In addition, contractor shall apply security controls when the contractor reasonably determines that safeguarding requirements, in addition to those identified in paragraph (c) of this clause, may be required to provide adequate security, confidentiality and integrity in a dynamic environment based on an assessed risk or vulnerability.

(c) *Safeguarding requirements and procedures.* Contractor shall apply the following basic safeguarding requirements to protect government information from unauthorized access and disclosure:

(1) Protecting information on public computers or Web sites: Do not process government information on public computers (e.g., those available for use by the general public in kiosks, hotel business centers) or computers that do not have access control. Government information shall not be posted on Web sites that are publicly available or have access limited only by domain/Internet Protocol restriction. Such information may be posted to web pages that control access by user ID/password, user certificates, or other technical means, and that provide protection via use of security technologies. Access control may be provided by the intranet (versus the Web site itself or the application it hosts).

(2) Transmitting electronic information. Transmit email, text messages, blogs, and similar communications that contain government information using technology and processes that provide the best level of security and privacy available, given facilities, conditions, and environment.

(3) Transmitting voice and fax information. Transmit government information via voice and fax only when the sender has a reasonable assurance that access is limited to authorized recipients.

(4) Physical and electronic barriers. Protect government information by at least one physical and one electronic barrier (e.g., locked container or room, login and password) when not under direct individual control.

(5) Sanitization. At a minimum, clear information on media that have been used to process government information before external release or disposal. Overwriting is an acceptable means of clearing media in accordance with National Institute of Standards and Technology 800–88, Guidelines for Media Sanitization, at http://csrc.nist.gov/publications/nistpubs/800-88/NISTSP800-88_with-errata.pdf.

(6) Intrusion protection. Provide at a minimum the following protections against intrusions and compromise:

(i) Current and regularly updated malware protection services, e.g., anti-virus, antispyware.

(ii) Prompt application of security-relevant software upgrades, e.g., patches, service packs, and hot fixes.

(7) Transfer limitations. Transfer government information only to those subcontractors that both require the information for purposes of contract performance and provide at least the same level of security as specified in this clause.

(d) *Subcontracts*. Any reference in this clause to Contractor also includes any subcontractor at any tier. Contractor is responsible for, and shall impose by agreement requirements at least as secure as those imposed by this clause on, any other person or entity that contractor authorizes to take action related to government information.

(e) *Other contractual requirements regarding the safeguarding of information*. This clause addresses basic requirements and is subordinate to any other contract clauses or requirements to the extent that it specifically provides for enhanced safeguarding of information or information systems. [07-7B105-1]

INFORMATION SECURITY – LOCATION OF DATA (FEB 2015)

Notwithstanding any other provisions, contractor is prohibited from processing, storing, transmitting, or accessing government information, as defined in the clause titled Information Security - Definitions, outside the continental United States. For clarity, this obligation is a material requirement of this contract and applies to subcontractors at any tier. [07-7B106-1]

INFORMATION USE AND DISCLOSURE (FEB 2015)

Except to the extent necessary for performance of the work, citizens should not be required to share information with those engaged by the government in order to access services provided by the government and such information should be used by those engaged by the government only to the extent necessary to perform the work acquired; accordingly, this clause addresses basic requirements for the Contractor's use and disclosure of government information, which expressly includes, but is not limited to, information provided by or obtained from the citizens. Anonymizing information does not resolve the foregoing concern. This clause should be broadly interpreted to effectuate this intent. Every obligation in this clause is material. Absent express reference to this clause, this clause supersedes any other clause to the extent of any inconsistency unless and to the extent the other clause provides greater protection for government information.

(a) *Definitions*. The terms used in this clause shall have the same meaning as the terms defined in the clause titled Information Security – Definitions.

(b) *Legal mandates*. Contractor shall be permitted to use, disclose, or retain government information to the limited extent necessary to comply with any requirement imposed on Contractor by law. If it is necessary for Contractor to use, disclose, or retain government information in order to comply with a law, Contractor shall provide using governmental unit with written notice, including a description of the circumstances and applicable law, in advance of such use, disclosure or retention except to the extent expressly prohibited by law.

(c) *Flow down*. Any reference in this clause to Contractor also includes any subcontractor at any tier. Contractor is responsible for, and shall impose by agreement the requirements of this clause on, any other person or entity that contractor authorizes to take action related to government information.

(d) *Collecting Information*. Contractor must gather and maintain government information only to the minimum extent necessary to accomplish the work.

(e) *Rights, Disclosure and Use*. Except as otherwise expressly provided in this solicitation, Contractor agrees NOT to either (1) use or disclose government information, or (2) retain government information after termination or expiration of this contract. Contractor acquires no rights in any government information except the limited rights to use, disclose and retain the government information in accordance with the terms of this solicitation. To the extent reasonably necessary to perform the work, Contractor may: (i) use (including access, process, transmit, and store) and maintain the government information itself; and (ii) disclose government information to persons having a need-to-know (e.g., subcontractors). Before

disclosing government information to a subcontractor or third party, Contractor shall give the using governmental unit detailed written notice of both the reason for disclosure and the identity and location of the recipient. The notice shall be provided no later than fifteen (15) business days in advance of the disclosure.

(f) Return. Notwithstanding the using governmental unit's failure to perform or the pendency of a dispute, Contractor agrees to promptly deliver to the using governmental unit (or destroy, at the using governmental unit's option) all government information in its possession as and upon written request of using governmental unit (provided that, if the contract has not expired or been terminated, Contractor shall be excused from the performance of any work reasonably dependent on Contractor's further access to such government information).

(g) Privacy Policy & Applicable Laws. Without limiting any other legal or contractual obligations imposed by this contract or the law, Contractor shall (a) comply with its own privacy policies and written privacy statements relevant to the work, and (b) comply with (1) all laws applicable to Contractor regarding government information, and (2) all laws and standards identified in the clause, if included, entitled Information Use and Disclosure – Standards.

(h) Actions Following Disclosure. Immediately upon discovery of a compromise or improper use of government information, Contractor shall take such action as may be necessary to preserve forensic evidence and eliminate the cause of the compromise or improper use. As soon as practicable, but no later than twenty-four hours after discovery, Contractor shall notify using governmental unit of the compromise or improper use, including a description of the circumstances of the use or compromise. As soon as practicable after discovery, Contractor shall undertake a thorough forensic investigation of any compromise or improper use and provide the using governmental unit all information necessary to enable the using governmental unit to fully understand the nature and extent of the compromise or improper use. With regard to any compromise or improper use of government information, Contractor shall: (1) provide any notification to third parties legally required to be provided such notice by Contractor, and if not (e.g., if legally required of the using governmental unit), Contractor shall reimburse using governmental unit for the cost of providing such notifications; (2) pay all costs and expenses for at least two years of identity theft monitoring services (including without limitation, credit monitoring) and identity theft restoration services for any such affected individuals receiving notice where such services are appropriate given the circumstances of the incident and the nature of the information compromised; (3) undertake any other measures that are customary and reasonable for an entity to take when experiencing a similar disclosure, (4) pay any related fines or penalties imposed on the using governmental unit, and (5) reimburse the Using Governmental Unit all costs reasonably incurred for communications and public relations services involved in responding to the compromise or improper use. Notwithstanding any other provision, contractor's obligations pursuant to this item (h) are without limitation.

(i) Survival & Remedy. All the obligations imposed by this paragraph are material. The obligations of this section shall survive termination or expiration of the contract. Without limiting any rights the using governmental unit may have, and notwithstanding any other term of this contract, Contractor agrees that using governmental unit may have no adequate remedy at law for a breach of Contractor's obligations under this clause and therefore the using governmental unit shall be entitled to pursue equitable remedies in the event of a breach of this clause. [07-7B108-1]

(a) by agreement on a fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

(b) by unit prices specified in the Contract or subsequently agreed upon;

RESTRICTIONS ON PRESENTING TERMS OF USE OR OFFERING ADDITIONAL SERVICES (FEB 2015)

(a) Citizens, as well as public employees (acting in their individual capacity), should not be unnecessarily required to agree to or provide consent to policies or contractual terms in order to access services acquired by the government pursuant to this contract (hereinafter "applicable services") or, in the case of public employees, to perform their job duties; accordingly, in performing the work, contractor shall not require or

invite any citizen or public employee to agree to or provide consent to any end user contract, privacy policy, or other terms of use (hereinafter “terms of use”) not previously approved in writing by the procurement officer. Contractor agrees that any terms of use regarding applicable services are void and of no effect.

TERMINATION FOR CONVENIENCE (JAN 2006)

(1) Termination. The Procurement Officer may terminate this contract in whole or in part, for the convenience of the State. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated and when termination becomes effective.

(2) Contractor's Obligations. The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the State. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

(3) Right to Supplies. The Procurement Officer may require the contractor to transfer title and deliver to the State in the manner and to the extent directed by the Procurement Officer: (a) any completed supplies; and (b) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing material") as the contractor has specifically produced or specially acquired for the performance of the terminated part of this contract. The

contractor shall, upon direction of the Procurement Officer, protect and preserve property in the possession of the contractor in which the State has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such supplies and manufacturing materials in a accordance with the standards of Uniform Commercial Code Section 2-706. Utilization of this Section in no way implies that the State has breached the contract by exercise of the Termination for Convenience Clause.

(4) Compensation. (a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data required by Section 11-35-1830 bearing on such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.

(b) The Procurement Officer and the contractor may agree to a settlement and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the State, the proceeds of any sales of supplies and manufacturing materials under Paragraph (3) of this clause, and the contract price of the work not terminated;

(c) Absent complete agreement under Subparagraph (b) of this Paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments agreed to under Subparagraph (b) shall not duplicate payments under this Subparagraph:

(i) contract prices for supplies or services accepted under the contract;

(ii) costs reasonably incurred in performing the terminated portion of the work less amounts paid or to be paid for accepted supplies or services;

(iii) reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to Paragraph (2) of this clause. These costs must not include costs paid in accordance with Subparagraph (c)(ii) of this paragraph;

The total sum to be paid the contractor under this Subparagraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of payments otherwise made, the proceeds of any sales of supplies and manufacturing materials under Subparagraph (b) of this Paragraph, and the contract price of work not terminated.

(d) Contractor must demonstrate any costs claimed, agreed to, or established under Subparagraphs (b) and (c) of this Paragraph using its standard record keeping system, provided such system is consistent with any applicable Generally Accepted Accounting Principles.

(5) Contractor's failure to include an appropriate termination for convenience clause in any subcontract shall not (i) affect the state's right to require the termination of a subcontract, or (ii) increase the obligation of the state beyond what it would have been if the subcontract had contained an appropriate clause.
